### PROFILE SUMMARY

I'm a 19-year-old BCA student at Mangalmay Institute of Management Technology, Greater Noida, with a commerce background and a strong passion for technology. I specialize in frontend development using HTML, CSS, JavaScript, and Bootstrap, and have experience with backend technologies like PHP and Laravel. Currently learning C and DSA(Data Structures & Algorithms) to strengthen my problem-solving. I like building real-world projects and growing as a full-stack developer.
